Subject: RE: WAR004570 Port of Port Angeles Terminal 5 LOG
Date: Friday, January 17, 2020 9:26:00 AM

Additional notes from the meeting:

-Yep Kevin is the contact (I'll call someone from ecology either way)

-Site issues:

- Slow to address problems
- putting treatment in some areas
- along shoreline

Subject: WAR004570 Port of Port Angeles Terminal 5 LOG

Hi Stacey,

As we discussed, one of the facilities on my inspection list is Port of Port Angeles Terminal 5 LOG (WAR004570), but I can't find this facility in PARIS. WAR004570 shows up in ECHO, but it says that the permit has been terminated. The three-year compliance history table shows "Terminated Permit" for every quarter since October 2016:

<https://echo.epa.gov/detailed-facility-report?fid=110020037360>

Do you know if the facility has an active industrial stormwater permit? Let me know if you have additional info on this facility or if there's anyone else I should contact. (The facility notes on the SWES target spreadsheet mentions Kevin Hancock at Ecology, but I wanted to check with you first.)

Thanks,

Matt
